

Out Now: The New WhisperShade® IQ® Brochure

Let's say you've got a designer or architect interested in the WhisperShade IQ motorized system. There are going to be questions. How many square feet of shade cloth can it support? What options are there to control the shades? What is the torque of the motors?

The answers to all these questions and many more are in the new publication, WhisperShade IQ System. It provides everything you'd want to know about the next generation in window-shade motorization.

The document contains information on:

- Wireless-communication capability.
- Control configurations.
- Integration with other manufacturers' control systems.
- Installation overviews.
- Technical specifications.
- Other features and benefits.
