

IQ/MLC2®—shipping now.

MechoSystems' next-generation group-motor controller—the IQ/MLC2—is now in stock and shipping. It replaces the IQ/MLC® in the online system and in Price List orders. Because the IQ/MLC2 is functionally compatible with the IQ/MLC, we will continue to support the IQ/MLC through 2012 for special requests. And the warranty and support-related matters will also continue for the IQ/MLC.

For further information on the IQ/MLC2 go to:

- [MechoNews Issue 24](#)
- Our Web site at mechosystems.com/iqmlc2
- Customer Service at +1 (718) 729-2020, option 3

Over 300 from 0 to 13%.

The online shadecloth page is now compatible with the Shadecloth Solutions Box. You can find well over 300 shadecloths in an array of colors and densities from 0 to 13%.

To request a shadecloth sample, send an e-mail to samples@mechosystems.com. Expect to receive samples from the fulfillment center in 48 to 72 hours within the Continental U.S.

Explore the new shadecloth page at mechosystems.com/shadecloth/
