

Green leadership gets the nod.

MechoSystems named Legacy Leader

The Cradle to Cradle Products Innovation Institute has honored MechoSystems as one of six Legacy Leaders, or early pioneers, of the [Cradle to Cradle \(C2C\) Certified^{CM}](#) product standard.

President Jan Berman accepted the award at a November 15 gala held at the IAC Headquarters in New York City.

The event was the culmination of “[50 Days of Innovation](#).” For 50 days, the Institute shared the stories of companies—such as MechoSystems, Herman Miller, Dow, Aveda, and Alcoa—who innovated to achieve the C2C Certified mark.

Laurels for federal leadership

The Coalition for Government Procurement has selected MechoSystems for its 2013 Green Excellence in Partnership (EIP) Award.

The Green EIP Award acknowledges federal partners whose products, services, or manufacturing processes—like [MechoSystems](#)’—demonstrate an exceptional commitment to the environment.

Denise Khoury, LEED AP, and Tawanda Cooper accepted the award on MechoSystems’ behalf at a recognition ceremony held in Falls Church, Virginia.

The HON Company and Ricoh Americas Corporation were also recognized. Past award winners include 3M and Ecolab.
